MIRROR

Which is the smartest radio solution out there?

Probably POPyourMIRROR.

Anyone who does not want a head unit for the radio on the dash, can now rely on the DAB-MIRROR from POP.

You strap the mirror outside your car's mirror. It looks better than you think. Very neat.

Then you connect the antenna and the power, chose the fm-frequency for transmission, or connect the line-cable, and switch on.

Instantly you'll hear all the digital radio stations on your car stereo. The same great reception as all the other POPyourCAR-models.

You can also make phone calls handsfree and stream any content from your smart device over Bluetooth.

Clever, high quality, smart solution. POP!
