Facts about POP17

statement

POP17

Switching off analogue fm radio for all national broadcaster, like Norway did in 2017, is making a very clear statement.

The future for radio is digital!

POP decided to give this statement the honour of a radio called 17.

Could be for the most amazing age in life, or the number of boyfriends you´ve had. But it´s not. It is the year 2017 - the year for digital radio in Norway.

So, this little gem in our radio range has dab+, fm, alarm clock and a unique design.

It makes a statement on the shelf. The kind that sounds good.
